MANIKINS TO PROVIDE TRAINING BOOST FOR LOCAL FIREYS

Bridgetown Volunteer Fire Service Captain Chris Wallace (second left) ,firefighter Linden Edward and Talison Emergency Response Team members Tim Hingston (left) and Britney Loney (right) say the new mannikins will greatly assist with firefighter training and emergency response.

As the bushfire season approaches, local firefighters will have a new training tool to greatly assist in rescue scenarios thanks to a donation of new life weight and life size manikins by Talison Lithium.

Bridgetown Volunteer Fire Service Captain Chris Wallace said prior to obtaining the manikins, the Bridgetown brigade had to share one set of manikins with other brigades in the South West. See inside for more details.

SCIENCE FAIR BRINGS FUN FACTS AND ACTIVITIES

Students from Greenbushes, Balingup and Kirup, community members and home school families found plenty of fun and education at the Greenbushes Primary School Science Fair on August 21.

The school brought together staff from Talison Lithium, Global Advanced Metals and community group representatives Cheryl Hammence, Felicity Littleton and Margaret Jakobson to provide inspiring activities aimed at creating more awareness of science in everyday life.

Activities included making lemon electrical circuits, working with magnets, understanding and measuring radiation, building spaghetti towers using engineering principles, making bouncy balls, making slime, examining objects using a microscope, understanding survey and drone photography, learning about local flora and examining macro-invertebrates under a microscope.

Making bouncy balls with Teigan.

Racing magnetised cars around the Sphero Track.

Greenbushes students present their own experiments on the big screen.

Using microscopes to view magnified objects.

Kirup students experiment with water properties.

The most beautiful thing we can experience is the mysterious. It is the source of all true art and science.

-Albert Einstein

SCIENCE FAIR BRINGS FUN FACTS AND ACTIVITIES

Steve Gomm and Darcy Walsh from Global Advanced Metals show the principles of radiation.

Greenbushes students demonstrate science experiments on the big-screen for all to see.

Margaret Jakobson shows students how to take a water sample and discover the many macro-invertebrates it contains.

Cheryl Hammence and Felicity Littleton (foreground) on the conservation and environmental science stand, show off local flora.

Creating electrical circuits using lemons.

MANIKINS FOR FIREYS

Local firefighters will now have a new tool in their armoury as the fire season approaches thanks to a donation by Talison Lithium.

Two new manikins - an adult and a child size and weight - will provide opportunities for firefighters to practice scenarios such as jaws of life retrieval of bodies following car accidents.

Bridgetown Volunteer Fire Brigade Captain Chris Wallace said the realistic weights of 70 kilograms for the adult manikin and 10 kilograms for the child manikin would give teams a better indication of the effort and skill required to lift and carry human bodies.

Prior to taking delivery of the new manikins in August, the brigade members had to share one set of manikins with other brigades in the South West.

“It wasn’t really practical because we had to share with the whole region including brigades as far away as Denmark, Walpole and Margaret River,” said Mr Wallace.

SUPERKIDS SCOOTER RIDE

The annual Superkids Superheroes scooter ride in memory of local boy Declan Kane will be held at the Bridgetown Trotting Club on October 9 and 10.

The 24 hour scooter ride around the trotting track will start at 2pm on Friday October 9.

Superkids Superheroes scooter ride is held each year to promote awareness and raise money for the Kids Cancer Project.

The Kane family in Bridgetown started the project to honour their son Declan who bravely battled with neuroblastoma from the age four to eight, showing he was a real superhero.

The family friendly event will include a dedicated Auskick football game, live music, bouncy castle and more.

Everyone is invited to attend. Those unable to attend can still support the cause with a donation made at https://superkidssuperheroes.everydayhero.com/au/donations-2020.

MINE NEWS - Craig's Corner

Myself and Jacqui were lucky enough to have our daughter visit us for a couple of days during August. We took the opportunity to show her around our fantastic community, albeit she struggled with the cooler weather after seven (7) years of living in the warmer climes of Port Hedland.

Talison will be holding a number of "Mind, Body and Soul" wellbeing information/awareness sessions for family members of Greenbushes employees to coincide with R U OK? Day during the week of 07 September.

Due to COVID-19 physical distancing restrictions, it is likely that numbers will be limited but I would like to see each session fully booked. Two (2) sessions each will be held in Bridgetown, Greenbushes and Donnybrook as follows:

08 September Bridgetown Lesser Hall

1:30pm-3:00pm and 6:30pm-8:00pm;

09 September Greenbushes CRC

1:30pm-3:00pm and 6:30pm-8:00pm; and

10 September Donnybrook Recreation Centre
1:30pm-3:00pm and 6:30pm-8:00pm.

To book, simply email families@talisonlithium.com

Most readers would be aware that the Global Lithium demand/price during 2020 has retreated from the historic highs seen in 2018/2019.

This slowdown has been due to a combination of a slower take up of electric vehicles (**EV**s) than previously forecast and the economic impact of the COVID-19 pandemic.

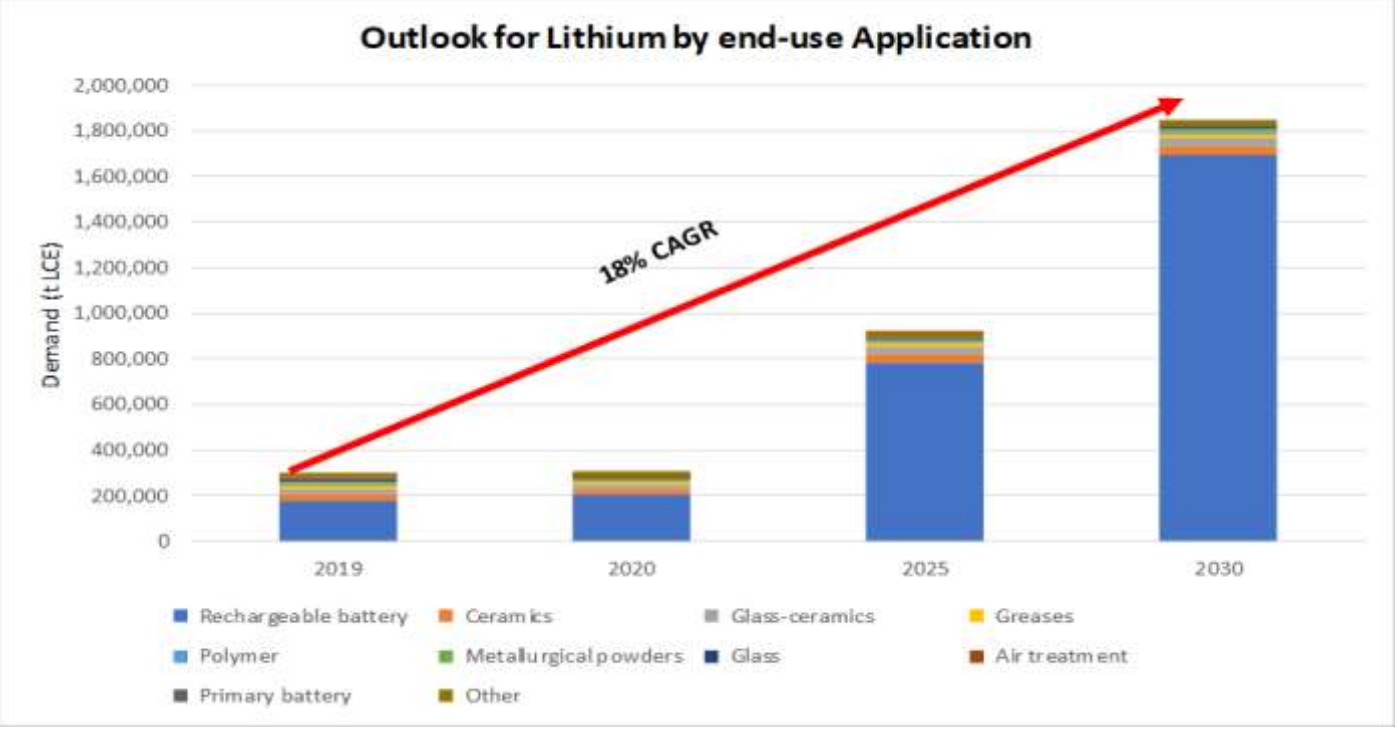
The latest Lithium market analysis from Roskill (who are a well regarded market analyst) however, continues to paint a positive picture for the growth of the Lithium market over the next 10 years.

Annual Lithium demand over the next five (5) years is forecast to increase by more than 300% and over the next 10 years by more than 600% (average annual growth rate of 18%) – see graph below. This means that whilst Greenbushes is currently experiencing a bit of a lull in our production, the long-term outlook for the mine remains very positive.

The Geological team has completed the drilling of the Kapanga lode which is situated immediately to the east of the main Central Lode open pit. Geological modelling is well advanced with the aim of having an updated Mineral Resource model for handover to the Mining team in the near future. This will allow for the design of a new open pit and the inclusion of Kapanga into our life of mine (**LOM**) plan. The Kapanga open pit is expected to add 3 – 5 years onto the mine life of Greenbushes.

Construction of a new explosives storage facility continues with clearing completed and earthworks commenced. The facility is still expected to be completed by year end. Works required to gain regulatory approval to construct a new tailings storage facility south of the existing facility are ongoing.

See inside this edition of the newsletter for information about a mental health fundraising raffle being supported by Talison. The "Do it for Dolly" raffle has a a prize pool of more than $25,000 with first prize being a cheque for $10,000.



RAFFLE TO SUPPORT MENTAL HEALTH

Talison is proudly supporting a mental health fundraiser "Do it For Dolly" raffle.

Thanks to our generous sponsors, including many of our contractors and suppliers, the total prize pool is valued at more than $25,000. First prize is a cheque for $10,000.

Ticket stalls will be held in the South West region in September and October. To find out about all options to purchase tickets, including by direct deposit, contact Julie on 0429 700 171 or Amanda on 0437 614 213.

The raffle will be drawn 06 November 2020.

Permit number: LS214959020.

Julie and Amanda will be at the following locations to sell tickets in September and October

The dates include:

5 September 2020	Bunbury Forum
26 September 2020	Donnybrook IGA
17 October 2020	Bunbury Forum
3 October 2020	Bridgetown Newsagency
18 October 2020	Busselton Foreshore Markets
TBA	Bunnings Bunbury

Raffle organisers Julie Clarke and Amanda James show the first prize cheque.

Tickets are also available locally at:
Greenbushes Roadhouse.

Backyard Buddies

Your monthly guide to pests, weeds & diseases

Woolly weather, woolly bears!

It seems to be the winter of the fluffy caterpillars, with reports of these woolly moth larvae coming in thick and fast. The affectionate name 'woolly bear' is applied to several common and widespread, native species. Let's meet two of them.

Pictured **above** is *Anthela* canescens, also known as the Western Anthelid, Family: Anthelidae.

The caterpillar is quite striking, with reddish-brown and black hairs mixed in with white tufted hairs. Rarely a pest, they usually feed on various *Eucalyptus* or *Corymbia* species and seek out well-protected places such as under bark or amongst firewood to pupate. Adults are drab coloured large moths which are clumsy flyers and are attracted to light.

Pictured **below** are the caterpillar and adult of the black and white tiger moth, *Ardices glatignyi*, Family: Arctiidae.

The caterpillar's colouration can be highly variable. Sadly, this one is a pest.

The caterpillar will munch its way through native plants, vegetables, herbs, rosemary, nasturtiums – just about anything green. Birds don't tend to eat these due to their hairy bodies, so if they are causing too much damage to tolerate, control by hand or select a product suitable for caterpillars. The moths do not damage plants, but are commonly attracted to light.

Are you getting the best Tax depreciation on your home or investment property?

Australian homeowners have become more creative with ways to use their homes by setting up home offices or renting out rooms to get extra cash. Short term rentals through the use of Airbnb have been on the rise. According to recent surveys over 80% of organisations are encouraging employees to work from home due to COVID-19.

The Australian Tax Office (ATO) has introduced a temporary, simplified method of claiming expenses to cater for employees working from home due to COVID. This applies from 1st March to 30th September 2020 and allows a deduction of $0.80 for each hour worked from home.

According to ATO, depreciation still remains the highest deduction for property investors after interest repayments. Since property depreciation is a non-cash deduction, it makes a significant improvement to an investors cash flow because the deduction can be claimed without incurring additional costs, whereas interest payments are a costly out-of-pocket expense.

Did you know that residential property investors can claim an immediate 100% deduction for assets costing less than $300 in the year of purchase.

Talk to your accountant to insure you are getting the optimum tax benefit from your property investment.

COVID creates mini real estate boom.

Who would have thought that COVID would create a Real Estate buying frenzy in regional areas! Most Real estate agents were pessimistically revising their business plans in March allowing for a decrease in sales due to regional border closures, however sales have "gone through the roof" with Bridgetown alone having 53 settled sales (and far more yet to settle) since March.

Wanting to sell or have your property professionally managed then talk to the "Real People in Real Estate" at Harcourts Bridgetown. Tel:9761 1566.

Working with regional communities to create a better future for families, businesses and towns.

Staff Shortages hurting businesses

The lack of skilled and unskilled workers in the South West is having a detrimental effect on businesses. Due to the lack of available staff, local cafes and restaurants are unable to open every day to cater to increased visitor numbers.

The Nationals asked the Government to consider a campaign to educate and offer ways in which Western Australians can work regionally, including training, worker accommodation and promotion of seasonal work. We also asked the Government to investigate possibilities of bringing people into WA under strict quarantine conditions, as many horticultural businesses rely on skilled overseas workers for picking and pruning.

Help our people return home

My office is receiving calls every day from families who have been torn apart due to travel restrictions. People from this area are trying to get home from the Eastern States. They are there for family or work reasons - to support a daughter having a baby; to attend the funeral of a brother who died tragically; or to conduct highly specialised technical work. These people should have their travel passes approved so long as they agree to adhere to all quarantine requirements.

Book your holiday accommodation locally

Despite The Nationals highlighting the issue of overseas booking platforms price gouging accommodation providers, the Minister for Tourism pleaded ignorance and suggested Tourism WA could report this activity to the Australian Competition and Consumer Commission.

In some cases, online booking platforms are increasing prices by 37%, of which accommodation providers receive not a dollar extra. This is damaging to accommodation providers reputation, particularly as they are working hard to provide the best possible experience at the most reasonable value to visitors exploring our region. My advice - book your holiday with a local tourism provider or directly with the provider.

COMMUNITY PERCEPTIONS SURVEY

A survey has been delivered to households and businesses in the Greenbushes townsite.

Residents are invited to participate in the survey which provides an opportunity for community members to provide important information to assist Talison to understand and respond to community concerns, needs and aspirations.

A Reply Paid Envelope has been provided with the survey to enable people to post it back at the Greenbushes Post Office.

For further information contact the Environment and Community Team on 97825700.

Plants of Special Interest

with Felicity Littleton

Caladenia reptans: C.N. **Little Pink Fairy Orchid.**

There is quite a good showing of the little pink fairy orchid this year.

I especially love it when they grow in clumps, but they are also often seen as solitary.

The Botanical name for this Orchid is really Caladenia reptans subsp.reptans. Another of this kind, subsp.impressa, grows up near Geraldton. The “reptans” means crawling or prostrate whereas the “impressa” is larger in flower and leaf.

Some times I spot some that look quite tall, and I think that they might be their cousin, C. latifolia, but this species is more likely to be found in woodland near the coast.

To distinguish the difference, if you are in doubt, the “Lip” or Labellum (at the front of the flower) on “latifolia” is white with a yellow plate and white fringes.

The “Lip” on “ reptans” is white with red markings.

I could write a list of differences between the two orchids, however, there are some first class Orchid publications to be found if you are really keen.

Recommended reading for my money is: “Identification and Ecology of South West Orchids”.

Mark Brundrett is the author. It is described as a user-friendly guide.

Definitely worth a look.

Felicity

COMMUNITY RESILIENCE - THE FOCUS OF WORKSHOP IN AUGUST

Building resilience in regional communities such as Greenbushes was the focus of a workshop at the Greenbushes Community Resource Centre in August.

The workshop was run by Community Preparedness Advisor for the Department of Fire and Emergency Service Lower South West.

Attendees included the Bridgetown Greenbushes Community Emergency Services Manager Lyndon Pearce, Shire councillors and interested community members from Greenbushes, Maranup Ford, Balingup and Bridgetown.

GREENBUSHES COMMUNITY SHED

Thanks to one of our observant Shed members, the large sign down at Stinton Gardens Estate in Greenbushes has been given a new lease of life. After walking by and noticing the sign was getting weathered (like the posts), it was taken down and delivered to the Shed for a sanding, re paint and topcoat, to protect the Jarrah for many more years to come.
We may have to take some cordless tools down there to complete the look by upgrading the posts, I think!
Just another way our Shed is giving back to the local community.

AGM

@ Greenbushes Community Resource Centre
On
Wednesday
9th September
3.30pm

If you would like to have a say in the direction of **your** local Shed, please come along.

We would like to take this opportunity to welcome new members and hope they make use of the facilities provided. We look forward to receiving any feedback which may help us improve or add to our equipment.

Our next project is to acquire an air-conditioner to install in the Shed, which will help alleviate the cold during our winter months and make for a more inviting environment.

FOR SALE @ the CRC

Bat Boxes $20
Phone holders $5
Bobbin holder $22
Tea Light Holders $10
Small Boats to Paint $5

If you are interested in joining our Shed once we re-open or have any queries, please contact:

Angie on 0439 612 628

Greenbushes Community Resource Centre News

Greenbushes Community Resource Centre Your local connection

Welcome to Spring!

The time to enjoy the longer days, crisp mornings, the sunshine, flowers blossoming and it is also time for me to say goodbye.

I have enjoyed my time working at the Greenbushes CRC and thank everyone in the community for supporting me & making me feel welcome but it is now time for my next working adventure.

And what an adventure it has been for me at the CRC with surviving the challenging time with changes to our funding, bidding farewell to the much loved Trainee Sophie, finding Codie to fill her shoes and then along came COVID which changed everyone's world.

Some of the warm & fuzzy things I have enjoyed and will miss has been the arts & craft workshops, the school holiday programs with the expansion of our Youth Club and Lotterywest funding to get more computers for the Youth Zone; our Wellness Program with weekly HIIT & DDP Yoga classes; the list can go on & on.

Thank you to the wonderful community of Greenbushes for welcoming me into their community and the volunteers who do an outstanding job in running the community groups and services (e.g. Discovery Centre) of the town. I wish you all the best of success with your future .

Also a BIG THANK YOU to the Greenbushes CRC staff, volunteers & committee - you all have been amazing & supportive to work with. I wish you all and the CRC the best for the future.

My last working day is Thursday 10th September please pop in to the CRC to say goodbye.....it is not goodbye to the town as Greenbushes will have a special place in my heart - It is Arrivederci.

Nicole - Greenbushes CRC Coordinator

P.s. The Greenbushes CRC is holding their AGM - see ad above right.

PPS Don't forget to check out our calendar to see what is happening at the CRC.

We look forward to seeing you

The CRC staff & volunteers

Risotto Terrine

A Vegetarian favourite from the Greenbushes Exchange Hotel

Prep & Cook time 1 hour 15 minutes

(plus cooling, refrigeration & standing)

Serves 6

Please note you will need to start this recipe the day before

Ingredients

1 medium red capsicum (200 grams)

8 medium roma tomatoes (600 grams)

3 & 1/2 cups (875mls) vegetable stock

1 tablespoon olive oil

1 medium brown onion (150 grams) chopped finely

1 clove garlic, crushed

1 & 1/2 cups (300 grams) Arborio rice

1/2 cup (125 mls) dry white wine

20 grams (3/4 ounce) butter

1/2 cup small fresh basil leaves

50 grams (1 &1/2 ounces) baby spinach leaves

1/2 cup (30 grams) basil pesto

1/2 cup (40 grams) coarsely grated parmesan

1. Preheat oven to 180 degrees C / 350 F
2. Quarter capsicum, discard seeds and membranes. Place capsicum and tomatoes on an oven tray, roast uncovered skin-side up for 40 minutes or until capsicum and tomatoes soften. Cover capsicum with plastic or paper for 5 minutes and then peel away skin.
3. Meanwhile, place stock in a medium saucepan and bring to boil. Reduce heat, keep at a gentle simmer.
4. Heat oil in a large saucepan over medium - high; cook onion and garlic, stirring for 5 minutes or until onion softens. Add rice, stir to coat rice in onion mixture. Stir in wine; cook, stirring until wine is absorbed. Add 1/2 cup of the simmering stock; cook, stirring over low heat until the stock is absorbed. Continue adding stock, in 1/2-cup batches, stirring until stock is absorbed after each addition. Total cooking time should be about 35 minutes or until rice is tender. Stir in butter and parmesan. Season to taste. Cool to room temperature.
5. Line a 10cm x 25cm (4 inch x 10 inch) terrine dish with plastic wrap. Place half the tomatoes, cut side down on base of dish, layer with half the spinach, half the risotto and all the capsicum. Continue layering with remaining tomatoes, remaining spinach and remaining risotto. Cover terrine, weight down with another dish filled with food cans. Refrigerate for at least 3 hours or overnight.
6. Serve terrine at room temperature topped with pesto and basil.

Note - Terrine will keep, covered in the fridge for up to 3 days.
